

Module 1 :

The screenshot shows the LinkedIn Learning interface for the course "JavaScript Essential Training" by Morten Rand-Hendriksen. The left sidebar displays the course contents, with "1. JavaScript: A Brief Introduction" selected. The main video player shows the first video, "JavaScript: First contact", with a subtitle that reads "If you go on the web and look for tools, t". The right sidebar shows the user's profile, "Manjeet Singh Yadav", and a list of navigation options: "My Learning", "My Career Journey", "My Library", "Settings", "Go to LinkedIn Profile", "Get Help", and "Sign out". Below the video player, there are tabs for "Overview", "Q&A", "Notebook", and "Transcript". The "Overview" tab is active, showing the instructor's name and a link to "Exercise Files".

JavaScript Essential Training
JavaScript: First contact

Contents

- Introduction
- 1. JavaScript: A Brief Introduction
 - JavaScript: First contact (2m 46s video)
 - Navigating the JS landscape (4m 29s video)
 - Tools for working with JavaScript (3m 24s video)
 - Linting and formatting (6m 27s video)
 - Get to know the browser console (6m 24s video)
 - JavaScript language basics (5m 37s video)
 - Learning JavaScript backward (3m video)
 - Chapter Quiz (7 questions)
- 2. Get Up and Running with JS

Instructor: Morten Rand-Hendriksen, Principal Staff Instructor, Speaker

Module 2:

The screenshot shows the LinkedIn Learning interface for the course "JavaScript Essential Training" by Morten Rand-Hendriksen. The left sidebar displays the course contents, with "2. Get Up and Running with JS" selected. The main video player shows the second video, "JavaScript: First contact", with a subtitle that reads "If you go on the web and look for tools, t". The right sidebar shows the user's profile, "Manjeet Singh Yadav", and a list of navigation options: "My Learning", "My Career Journey", "My Library", "Settings", "Go to LinkedIn Profile", "Get Help", and "Sign out". Below the video player, there are tabs for "Overview", "Q&A", "Notebook", and "Transcript". The "Overview" tab is active, showing the instructor's name and a link to "Exercise Files".

JavaScript Essential Training
JavaScript: First contact

Contents

- 2. Get Up and Running with JS
 - JavaScript in an HTML document (3m video)
 - JavaScript as an external file (2m 59s video)
 - Modern JavaScript loading (4m 14s video)
 - JavaScript modules (4m 18s video)
 - Chapter Quiz (4 questions)
- 3. Objects
 - Objects: A practical introduction (4m 53s video)
 - JavaScript objects: The code version (2m 57s video)
 - Object containers (2m 22s video)
 - Object properties

Instructor: Morten Rand-Hendriksen, Principal Staff Instructor, Speaker

Module 3:

LinkedIn Learning interface showing a video player for "JavaScript Essential Training" by Morten Rand-Hendriksen. The video title is "JavaScript: First contact". The video player shows a man speaking, with a subtitle: "If you go on the web and look for tools, tu". The video progress is 0:05 / 2:46.

Contents:

- 3. Objects
 - ✓ Objects: A practical introduction (4m 53s video)
 - ✓ JavaScript objects: The code version (2m 57s video)
 - ✓ Object containers (2m 22s video)
 - ✓ Object properties (55s video)
 - ✓ Accessing objects (2m 32s video)
 - ✓ Accessing object properties (3m 35s video)
 - ✓ Practice: Build a new object (1m 18s video)
 - ✓ Prototype inheritance (2m text)
 - ✓ Object methods (6m 29s video)
 - ✓ Practice: Build a new method (56s video)

Instructor: Morten Rand-Hendriksen, Principal Staff Instructor, Speaker.

Module 7:

The screenshot displays the LinkedIn Learning interface for Module 7: JavaScript Essential Training. The video player shows a man speaking, with a subtitle that reads "If you go on the web and look for tools, tutorials". The sidebar on the left lists the following topics:

- 7. Arrays
 - Arrays explained (2m 50s video)
 - Arrays in code (4m 36s video)
 - Array methods (5m 53s video)
 - Set: Arrays with unique items (4m text)
 - Challenge intro: Array manipulation (1m 45s video)
 - </> Code Challenge: Array manipulation (20m practice)
 - Solution: Array manipulation (4m 13s video)
 - Chapter Quiz (5 questions)
- 8. Functions and Methods
 - The real-world function (2m 49s video)
 - Functions and methods (6m 23s video)

The user profile dropdown menu is open, showing the user's name, "Manjeet Singh Yadav", and various options: My Learning, My Career Journey, My Library, Settings, Go to LinkedIn Profile, Get Help, and Sign out.

Module 8:

The screenshot displays the LinkedIn Learning interface for Module 8: JavaScript Essential Training. The video player shows a man speaking, with a subtitle that reads "If you go on the web and look for tools, tutorials". The sidebar on the left lists the following topics:

- 8. Functions and Methods
 - The real-world function (2m 49s video)
 - Functions and methods (6m 23s video)
 - A standard function (3m 53s video)
 - The arrow function (4m 49s video)
 - Arrow functions and "this" (4m 20s video)
 - Practice: Build a function (1m 31s video)
 - Pass data to a function with parameters (4m 56s video)
 - Return values from a function (7m 1s video)
 - Returns: Deeper dive (5m text)
 - Practice: Pass values between functions (2m 33s video)
 - Callbacks (5m 29s video)

The user profile dropdown menu is open, showing the user's name, "Manjeet Singh Yadav", and various options: My Learning, My Career Journey, My Library, Settings, Go to LinkedIn Profile, Get Help, and Sign out.

The screenshot displays the LinkedIn Learning interface for Module 8: JavaScript Essential Training. The video player shows a man speaking, with a subtitle that reads "If you go on the web and look for tools, tutorials". The sidebar on the left lists the following topics:

- 8. Functions and Methods
 - Practice: Pass values between functions (2m 33s video)
 - Callbacks (5m 29s video)
 - Conditional if...else statement (5m 52s video)
 - Logical operators (3m 31s video)
 - Conditional switch statement (5m 55s video)
 - Looping through content (5m 19s video)
 - Using the map() array method (4m 52s video)
 - Challenge intro: Create a content factory (2m 36s video)
 - </> Code Challenge: Create a content factory (20m practice)
 - Solution: Create a content factory (5m 21s video)
 - Chapter Quiz (17 questions)
